Primo – new interface

Next Generation Discovery - new user interface, new visualization for exploration, new functions for personalization

We are working on a new user interface that will provide a coherent experience across all devices. Using the latest technologies, the new interface will be easy to customize and will enable excellent performance. In addition, it will provide visualization capabilities to support exploration trails and personalized discovery.

ExLibris

2016 Roadmap Highlights

Broad & Rich Content Offering

User Experience

Library Empowerment

Discovery in Context

ExLibris **Primo**

Summon®

Shared and enriched index

New User Interface	Digital Collections	Integration with Leganto
Controlled Vocabulary	Integration with Alma	Integration with RefWorks V3
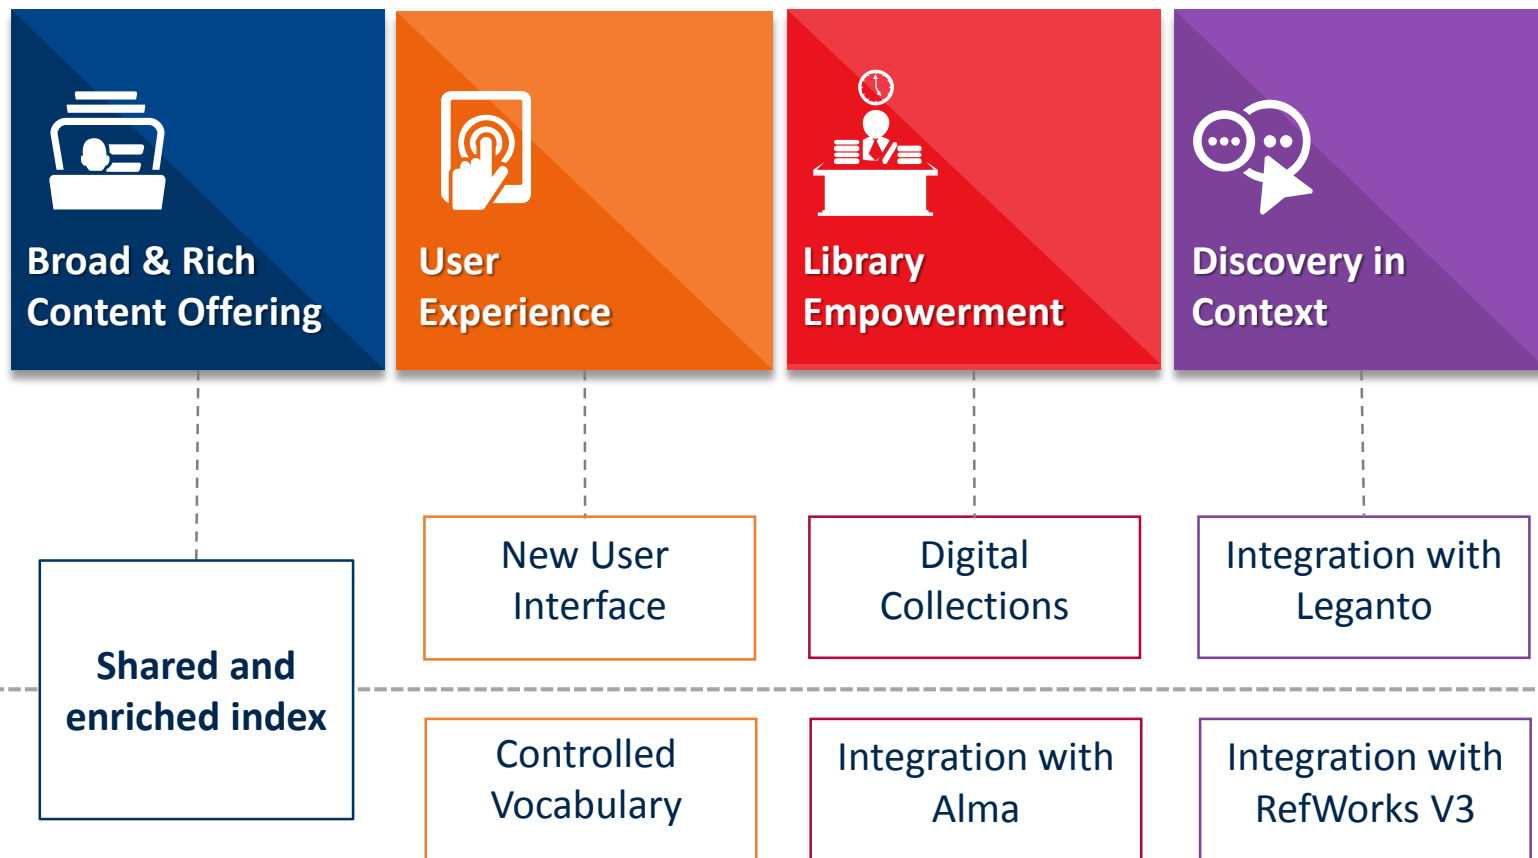

Primo Digital Collections
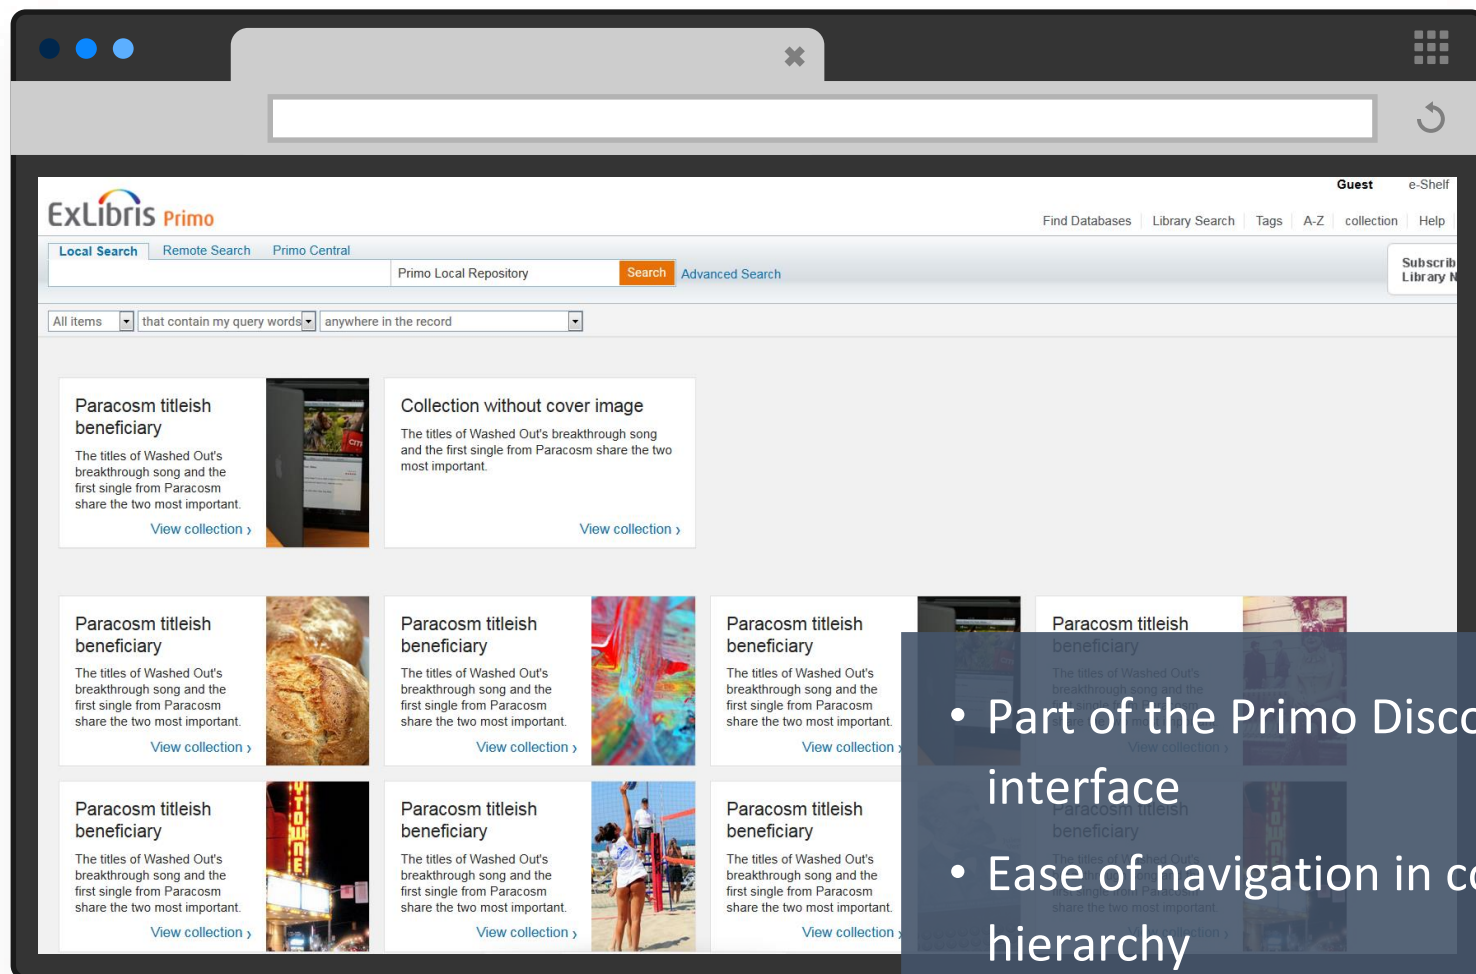

- Part of the Primo Discovery interface
- Ease of navigation in collections hierarchy
- Integrated with Rosetta and Alma
Extensive and Reliable Content Coverage

Deep content coverage

Tracks the most types, and broadest types, of resources

Best & easiest access to full-text content

Provides superior linking experience with minimal workload for library staff

Stewardship of metadata

Aggregates, enriches, and updates metadata from all sources

Authoritative resource metadata

Improves discoverability

Addition of multiple collections--for example:

Summon → Primo:
- USPTO - U.S. patents & grants
- Infobase Learning
- IHS, Inc. (standards)
- Naxos of America, Inc. (music)

Primo → Summon:
- GBI-Genios
- United Nations Food and Agriculture Organization (AGRIS)
- Airiti Library (CEPS)
- Newsbank Readex

ExLibris
